Sir,

With reference to your letter of the 24th Ultimo No 5026/334, I have the honor to submit for the Chief Commissioner's perusal a copy of my No 2830 of the 4th Instant to the Director of Public Instruction [illegible] Officer's reply in [illegible] the proposed rule for the travelling allowances of Inspectors of Schools in Mysore.

2. Having since been in correspondence with the Director of P. Instruction with regard to a recent bill (for November/70) submitted by the Inspector of the II Circle, and received an explanatory letter from this Officer which I enclose in original (No 1181 D/21st December/70 to be kindly returned) further consideration of the subject leads me to doubt the efficacy of the rule suggested by me as a check against mileage charges, as even with the modifications proposed by the Chief Commissioner it admits of mileage being drawn whenever the distance travelled in a day exceeds 10 miles, a distance which can usually be accomplished with an Officer's own travelling

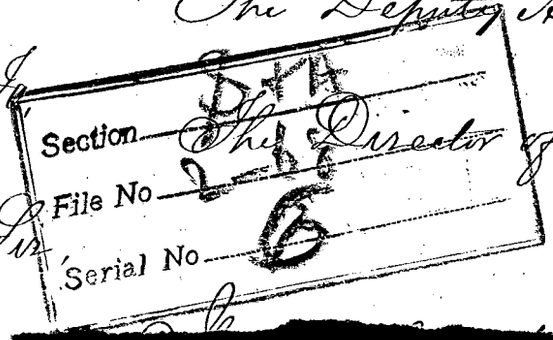
Sir,



I have the honor to enclose in original / to obligingly returned / the letters as per margin reg the rule for travelling allowances to the Inspectors of Schools in Mysore.

It will be observed that the Chief Commissioner desires that a maximum annual amount may be fixed for the travelling charges of each Inspector and I am to request the favor of your opinion on the point.

I think a limit will be necessary to the Rule for Commissioner, as that rule permits of mileage being charged in lieu of the daily allowance of 4 Rupees when the distance travelled in one day exceeds 10 miles. But it appears to me that apart from a restriction of amount it is very desirable that the route of inspection should be laid down with a view to obviate unnecessary travelling over the same ground and to economise time as well.

Sir,

Correspondence marginally noted received with your letter N° 2830 of the 4th Instant, and in reference to the request that a maximum annual amount may be fixed for the travelling charges of each Inspector, I concur in the opinion that it is desirable to have such a limit.

Letter from the Dy. Accountant Gen. to the Secretary to the Chief Comm. N° 2673 2/12 December 1870

His reply N° 5026/334 2/27 Dec. to the Dy. Accountant General

The Budget provision under this head is Rupees 4000 for the ... ut Rupees ... has already been expended.

The maximum amount might be fixed at 25 per cent on the salaries of the Inspectors or Rupees 3600 annually for the Inspectors of both Circles.

It is certainly of the utmost consequence that the routes of inspection should be such as to obviate unnecessary travelling over the same ... is a point ... 40 ... roes do ... ... en it cannot be avoided.

The amended rule seems to meet all the requirements of the service.

# MYSORE GRANT-IN-AID RULES.

The Local Government, at its discretion, and upon such conditions as may seem fit in each case, (reference being had to the requirements of each District as compared with others, and the funds at the disposal of Government), will grant aid in money, books, or otherwise, to any school under adequate local management, in which a good secular education is given through the medium either of English or the vernacular tongue.

2. In respect of any such school for which application for aid is made, full information must be supplied on the following points:—

1st. The pecuniary resources, permanent and temporary, on which the school will depend for support.
2nd. The proposed monthly expenditure in detail.
3rd. The average number of pupils to be instructed.
4th. The persons responsible for the management.
5th. The nature and course of instruction.
6th. The number and salaries of masters or mistresses.
7th. The nature and amount of aid sought.

3. Any school to which aid is given, together with all its accounts, books, and other records, shall be at all times open to inspection and examination by any officer appointed by the Local Government for the purpose. Such inspection and examination shall have no reference to religious instruction but only to secular education.

4. The Government will not interfere with the actual management of a school thus aided, but will seek, upon the frequent reports of its Inspectors, to judge from results whether a good secular education is practically imparted or not; and it will withdraw its aid from any school which may be, for any considerable period, unfavorably reported upon in this respect.

5. In giving grants-in-aid, the following principles will be observed:—

(*a*) The Government will always endeavour so to give its aid that the effect shall not be the substitution of public for private expenditure, but the increase and improvement of education.

(*b*) Grants will be given to those schools only (with the exception of normal schools and girls' schools) at which fees of reasonable amount are required from the scholars.

(*c*) In no case will the Government grant exceed in amount the sum to be expended on a school from private sources.

(*d*) For schools educating up to the University Entrance Standard, the Government grant will not, as a rule, exceed one-half of the income guaranteed from local sources.

(*e*) For other schools in which the expenditure is more than Rs. 30 per mensem, the Government grant will not, as a rule, exceed two-thirds of the income guaranteed from local sources.

(*f*) The proportional amounts above laid down for Government grants are *maximum* amounts; and it must not be assumed that the *maximum* will, in all cases, and as a matter of course, be sanctioned.

(*g*) The conditions of every grant will be subject to revision periodically.

6. It is to be distinctly understood that grants-in-aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any school on the ground that any particular religious doctrines are taught or not taught therein.

7. The erection, enlargement, and repairs of school houses are included among the objects for which aid may be given, subject to the conditions prescribed in para 5, *C*. Whenever a building grant is asked for, a plan and estimate of the building, and the number for whose accommodation it is required, should accompany the application.

8. In the event of any building towards the erection, purchase, enlargement or repair of which a grant may have been made by Government, being devoted to any other than educational purposes, the Government shall have the option of purchasing the building at a valuation to be determined by arbitrators, credit being given for the amount of the grant which may have been made by Government.
